8 weeks.
International experience.
Real industry insights.

EW GROUP

EW GROUP SUMMER SCHOOL

International Internship in Poultry Production (8 Weeks)

Gain hands-on experience in modern poultry production across Europe.

The EW Group Summer School offers motivated students the opportunity to gain practical insights into the international poultry industry. During this 8-week internship program, participants experience the full value chain of layer distribution within a globally recognized network.

The program starts with an onboarding session at EW Group headquarters in Germany and continues with a practical internship at one of our partner companies across Europe.

Your Experience

During the program you will gain practical experience in areas such as:

- Parent stock management
- Production of hatching eggs
- Hatchery operations
- Rearing of commercial hens
- Farm management and production processes

You will work alongside experienced professionals and gain insights into one of the most innovative sectors of modern agriculture.

Program Structure

Week 1 – Onboarding
Introduction to EW Group and the international network of layer distribution companies.

Week 2–7 – Practical Internship
Hands-on experience at one of our partner companies across Europe.

Week 8 – Check-out & Reflection
Review and final feedback session at the practical internship layer distribution company. Travel back to EW Headquarters for program completion and networking opportunities.

Possible Locations

Internships take place at EW Group companies across Europe, including:

- H&N Peninsular Spain
- Hy-Line France
- Hy-Line Italy
- Hy-Line UK
- Ibertec Spain
- Lohmann Denmark
- Lohmann Deutschland
- Lohmann France
- Lohmann GB
